

Jordan Russell Weatherford

206-228-3668 jrw821@gmail.com 821 Caspers st. Edmonds, WA - 98020

Profile

A results-driven, energetic problem solver. A passion for building and optimizing tools that I use personally, with a knack for eliminating inefficiencies. A fun team member to work with and able to get along with everyone.

Work History

HOUSE PAINTER(OWNER / OPERATOR), WEATHERFORD ENTERPRISES; EDMONDS, WA – 2014 - PRESENT

I started a painting company in 2014, with the idea to keep a positive cash flow while seeking employment. One job led to the next and I ended up hiring a few employees and doing this for the past 3 years. It's been a really fun and challenging experience to be self-employed and it's enabled me to stash away enough cash to finally leap head-first in to the career of my dreams... software development.

FARMHAND, EVERYONE GROWS ORGANIC FARM; HILO, HAWAII – 2013-2014

I've always had a strong passion for observing and appreciating flora and fauna. I spent a full year living, working and learning on a sustainable organic farm on the Big Island of Hawaii. I used this time to not only unwind and simplify my life but also to figure out what I wanted to pursue a career in.

PARTS EXPEDITER (TEAM LEADER), BOEING; EVERETT, WA – 2008-2012

I spent 4+ years working for the Boeing company where I started as a parts warehouse associate and worked my way to up a parts expeditor and eventually the expedite team lead. I learned a tremendous amount about working with a team to meet managements and other organizations needs. I eventually left the company to seek out other opportunities that would spark my passions.

Education

Coding Dojo Seattle - 2017

Edmonds Woodway HS – 2002-06

Skills

I'm a full stack developer. I've deployed web applications using Python (Django) and Ruby on Rails backends with SQL databases. I've also developed multiple iOS applications, also using Rails backends.
